EDITORIAL BOARD

"Ambition is the path to success. Persistence is the vehicle you arrive in."

—Bill Bradley.

Dear Parents,

We welcome you to the new academic year and would like to quote Vivian Jokotade, **"I discovered that a fresh start is a process. A fresh start is a journey – a journey that requires a plan."**

At **Brookfield International School**, we believe that it is our responsibility to maintain and continue to build a supportive and collaborative spirit at our school. The power of words is that life can be launched with as little as a single phrase, an uplifting word or an act of kindness. Think of the power we wield and the impact we can make if we become more intentional about encouraging our children. Our words are often the very things that help create future dreams. As a school community, we will build great learners on the traditions and meet future challenges in innovative and exciting ways!

BROOK^X TALK

BROOK-X TALK IDEAS WORTH SPREADING

There are three things to aim at in public speaking: first, to get into your subject, then to get your subject into yourself, and lastly, to get your subject into the heart of your audience.” – Alexander Gregg

The students were guided by the teachers and given some tips on public speaking. Some of the themes for this activity were Health, Medicine, Biosphere, Animals and evolution. Students were selected to participate in the next level of this activity on the basis of some rubrics. The students were confident and enthusiastically participated in the activity.

THE GLOBAL GOALS

"A sustainable world is one where people can escape poverty and enjoy decent work without harming the earth's essential ecosystems and resources; where people can stay healthy and get the food and water they need; where everyone can access clean energy that doesn't contribute to climate change; where women and girls are afforded equal rights and equal opportunities."

The students of Brookfield International School participated wholeheartedly in the SDG activities conducted by the school. An introduction about all the 17 Sustainable Development Goals was provided to the students. Sustainability is about how we humans manage to create a respectable quality of life for each one of us within the limits of the resources available on Earth. The fun-filled activities are not only enjoyable but also will surely have a positive impact on the future generations of policymakers and leaders-the youth of our nation!

Ronald E. Osborn

A 'Spellathon' was conducted by the school on **25th April 2023** for the students of **Grades VI to VIII**. —Emil Zatopek.

An “Inter House Kho-Kho Competition” was organised in the school for the students from **Grades III to XII**. The students of all four houses participated in it. The initiative of this indigenous game has been taken to create an environment for empowering the talent of students who will become the pride of our nation in the future.

This game is not only very physical, with lots of running, diving and squatting, but also brilliant for encouraging teamwork. Participants have to watch carefully, work together and learn how to recognize when a teammate should take over the pursuit. It was a splendid show of vigour and enthusiasm which held everyone spellbound.

The ball is round so that the game can change direction”

~ Sepp Herberger

A ball-throwing activity for Grade I & II students was organised by BFIS. Activities like these are a part of our school curriculum. When children practice and get involved in sports and games, it helps them understand that they can learn and get better at anything they desire, which in turn builds their self-esteem and confidence.
